Culmore Community Partnership (CCP) exists to provide local leadership to the future development of the Greater Culmore area. We are committed to development that preserves, protects and enhances Culmore’s natural and built environment.

Greater Culmore is inclusive, diverse and unique. It has a proud tradition of excellent community relations with residents of many traditions, faiths and nationalities. Both rural and urban, it has a unique interface with Donegal. Buildings of historical and cultural value sit cheek by jowl with new housing and retail developments. It is a community proud of its heritage and looking with confidence to the future.

Culmore Community Partnership’s membership is representative of the community. As we move forward, our projects and programmes will be open to all. The projects we espouse will preserve, protect and enhance the natural and built environment of Greater Culmore, including the river front and the rural hinterland. In doing so, we will work with local planners, housing agencies and property developers to protect our natural environment and preserve iconic landmarks like Victoria Hall and Boom Hall.

There is a clear need for local amenities including recreation, community sport and children’s play facilities. We will work in partnership with DCSDC and other agencies and providers to secure funding for state of the art facilities, such as new soccer and Gaelic sports provision. We will work to secure a new community facility that meets the needs of the local community.

We will also develop programmes that maximise Culmore’s tourism potential, focusing on our cultural heritage, arts and crafts.

As we undertake this work, we will initiate a continuous process of engagement, consultation and outreach to all groups and residents of Greater Culmore, seeking your views and participation in all we aim to do on your behalf.

We welcome everyone who has a contribution to make towards the enhancement of the area. Please contact us at culmorepartnership@gmail.com if you would like to join us in our work!

Neil Doherty
Chairman
